## For Immediate Release

### The Sunset Lounge Experience .... An Excellent Hospitality Partner

Sarasota, FL, January 20, 2016, The **Sunset Lounge Experience** debuts on St. Petersburg Beach in May 2016. Brought to you by the producers of Chillounge Night, the ultimate outdoor lounge party, the **Sunset Lounge Experience** promises to be an innovative, tasteful, and exclusive gathering for a very select few.

The **Sunset Lounge Experience** is the perfect partner for the stylish and sophisticated beach side hotel. It opens the hospitality market to a refreshing concept in either off-market times or peak seasons.

This unique social gathering feels like a private club. Within the enchanting ambiance of the Sunset Lounge, you feel the rhythm and heat of the night as graceful models showcase exquisite fashions while they interact with the guests ... let the dazzling art of fire dance captivate ... and sway to the beat as the sensual and colorful ladies of Samba provide that extra magical touch. Music to please, with rare chill-out compilations, are played through the night.

Fine dining will be at its best as guests feast on a banquet of unique culinary delights. This gives the hotel chef and staff the opportunity to provide innovative, as well as signature dishes. And of course, no night is complete without the fine taste of champagne.

The Tradewinds Island Resorts on St. Pete Beach will be the first to offer their idyllic beach setting for the perfect gulf-side affair. **Casual chic comes to life here**.... Trendy lounge furnishings offer seating for 280 guests. Guests can reserve an intimate private daybed for two or join the mix and mingle crowd in our centrally located SLE lounge seating area. All guests will have reserved seating.

Special hotel package deals can be made available, as well as a unique Sunday Brunch offering for the morning after.

The **Sunset Lounge Experience**... understated elegance... **“Be out of the ordinary”**. The ideal partner for existing events, your Hotel/Resort, wedding or corporate event planning needs.
